Uncodemy Edutech Pvt. Ltd. was founded as a technical training institute under the Companies Act of 2013 with the main objective of training the youth in the areas of information and communication technology, such as **Artificial intelligence, machine learning, data science and analytics, business analytics, software testing, full stack development, digital marketing, web development, cyber security, ethical hacking, Cloud computing, AWS , Devops and other on-demand IT courses.**

Uncodemy has been associated with its parent company, GvCloud Secure Pvt. Ltd., Since its inception. Therefore, Uncodemy is not just a training institute but has been working as a web application development company and other service provider in the IT sector in India and abroad for many years. Uncodemy not only understands and meets the needs of the modern IT sector but also gives its students more career chances than other training facilities by focussing on practical training in accordance with client expectations.

In order to make the youth eligible for the current job vacancies, it is an essential aspect that the training curriculum is in sync with the current market demand. The curriculum of various courses offered at Uncodemy is designed keeping in mind the current market demand and the capabilities of the youth. The training program is provided as per the normset by the Ministry of Skill Development & Entrepreneurship, Government of India, and in compliance with the National Skill Quality Framework.

Through its ongoing efforts, **Uncodemy is fulfilling the vision of the Government of India to provide skill training to the youth and build a self-reliant India.** In addition to helping the young people get jobs we also assist them in finding jobs. **We rise by lifting others.**

UNCODEMY

VISION & MISSION

"Uncodemy is a team of high-class working professionals associated with a Fortune 500 company. We are on a mission to employ millions. If you want a job or a career change, Uncodemy is the right place for you. We will teach you how to work with the latest technology."

PROGRAM HIGHLIGHTS

 Live industry-based projects	 100% placement Guarantee	 CV building	 Confidence Building
 Online  Offline Online & offline	 weekly & weekend classes	 Interview Session	 Mock Interview Session
 Course Completion certificate	 Recorded Class	 Group Discussion	 Grooming session
 Interview Session	 6 Monthe internship	 Access to Class & Training Until Placement	 Communication Skills

ABOUT US

Uncodemy is one among a couple of driving organizations / in Delhi, Noida, NCR, India that give undeniable preparation in Data Science, Machine learning, Python programming, Tableau, - Deep Learning, AWS Artificial Intelligence. We at the collegetarget producing quality experts who can withstand the developing contest and rising intricacies in the innovative world. We are growing and leading the company of Delhi, Noida, NCR, India.

THE UNCODEMY

Is an Educational and Professional improvement Organization that has been established to propel the product and IT calling by advancing and perceiving demonstrable skill through training, counselling, gatherings and accreditation. Our Professional Dedicated Team guarantees to give you the best of specialization courses under disciplines like Data Science Machine Learning, Data Mining, Tableau, Text Mining, ReactJS, NodeJS, Angular, Python Programming, Deep Learning, and Java, network protection, programming testing, Cloud Technology, Digital advertising and a lot more with an emphasis on trustworthiness and on the web and Offline learning. We're attempting to transform our enthusiasm for IT Software Training Platform into a thriving position and occupation situated in the preparing stage without any hesitation at work.

Our aim is simple: We strive to create high-impact, hands-on experiences that prepare learners for meaningful and productive careers.

**Warm Regards,
Founder Uncodemy**

CAREERS IN CORE JAVA + ANDROID + FLUTTER

SALARY PACKAGE

The results of a Core Java + Android + Flutter job is tracked in a database engineers to review so they can fix the defect. There are times when the position can seem monotonous, but the focus of your work will constantly change to different aspects of the program, alleviating some of the repetition. You also get an early look at the latest in technology and have a hand in making sure that a program is as defect free as possible. Finally, with Development being an area that will always grow, Core Java + Android + Flutter have one of the most secure jobs in the tech industry.

Why Should You Choose UnCodemy?

Top MNCs

UnCodemy partners with top-tier companies to ensure that its students receive instruction from industry experts with hands-on experience in the field of Core Java + Android + Flutter.

No. 1 Institute for the Core Java + Android + Flutter

UnCodemy in Noida stands out as the premier Core Java + Android + Flutter provider, featuring industry-experienced mentors from major corporations. With a commitment to 100% placements, it offers live project experiences, flexible online & offline training modes, and accelerated certification options catering to working professionals.

About Courses

UnCodemy follows a structured approach and comprehensive curriculum. Here are some key reasons why learning Frontend from a training program can be beneficial:

1. Access to experienced instructors who can provide personalized guidance and support.
2. Exposure to industry-relevant tools and technologies.
3. Hands-on experience with real-world datasets and projects.
4. Networking opportunities with other students and professionals in the field.
5. A structured curriculum that covers the key concepts and skills needed to succeed in Core Java + Android + Flutter .
6. Access to job placement assistance and career counseling.

About Industry Expert Trainers

Uncodemy partners with seasoned industry professionals to provide students with first-hand knowledge and real-world applications in the realm of Core Java + Android + Flutter. These experienced instructors share their practical insights, equipping students not only with theoretical knowledge but also with the practical skills needed to succeed in the field.

About Certificate

Uncodemy is recognized by top industry bodies such as ISO and NASSCOM and is also endorsed by Skill India, a government initiative aimed at boosting skills development in the country. The certifications provided by Uncodemy are highly valued by employers, as they signify that the candidate has completed a rigorous program and has the necessary skills and knowledge to excel in the field.

Doubt Session

Uncodemy facilitates doubt sessions where students can receive individualized attention and clarification on challenging concepts. These sessions are led by experienced instructors who provide comprehensive explanations and examples, ensuring that students leave the session with a thorough understanding of the material.

Grooming Session

Soft skills training to improve communication, networking, and leadership skills. Identifying and highlighting transferable skills that may not be obvious.

CV building

Helping students build a killer resume. Ensuring that the resume includes relevant keywords to help it stand out in applicant tracking systems. Overall, it's about helping students make their resume shine and stand out from the competition.

Interview session

The goal is to prepare students for the job interview process, giving them the chance to practice their communication and interpersonal skills, and helping them feel more confident and prepared for the real thing.

Mock interview

Uncodemy uses mock interviews in its IT training program as a tool to help students refine their interview skills and prepare for job interviews in the tech industry. The mock interviews are designed to replicate the pressure and format of a real interview, without the actual job at stake.

Key Features

 Live industry-based projects	 100% placement assistance	 CV building	 Confidence Building
 Online & offline	 weekly & weekend classes	 Interview Session	 Mock Interview Session
 Course Completion certificate	 Recorded Class	 Group Discussion	 Communication Skills
 Interview Session	 6 Monthe internship	 Access to Class & Training Until Placement	

Course Curriculum

CORE JAVA

MODULE 1: CORE JAVA

- First Program Concept
- First Program (IDE)
- JAVA Variable
- JAVA Data Type
- JAVA Type Conversion
- JAVA Operator
- JAVA Input/Output
- JAVA Comment

MODULE 2: CONTROL FLOW

- JAVA if Expression
- JAVA when Expression
- JAVA for Loop
- JAVA while Loop
- JAVA Do while Loop

MODULE 3: FUNCTION

- JAVA Function
- Default and Named Argument
- JAVA Lambdas

MODULE 4: JAVA OOPS

- Class and Object
- Nested and Inner Class
- JAVA Constructor
- JAVA Inheritance
- Abstract Class
- Polymorphism Class
- Kotlin Interface

- Data Class
- Sealed Class
- Encapsulation
- JAVA Utils Class

MODULE 5: COLLECTIONS

- Array
- JAVA Collections
- List: listOf()
- mutableListOf()
- JAVA Array List
- array ListOf()
- Map: mapOf()
- mutableMapOf()
- JAVA HashMap
- hashMapOf()

Android

MODULE 1: SETUP OF ANDROID DEVELOPMENT ENVIRONMENT

- System Requirements
- Configuring the Emulator
- Resources, Build Process, R class, Assets
- The Android Log and Log Cat
- The Dalvik Debug Monitor Services
- Creating first Android Application

MODULE 2: ANDROID TOOLS

- Android UI and Advance Java
- Dialog Box

Course Curriculum

- Splash
- Web View
- Switch
- Scroll Bar
- Toggle Butons
- Time and Date
- Progress Bar
- Tablet
- Mobile Gallery
- Slider on Activity
- Multimedia
- Data Binding
- Using Threads and Models
- Android Widget Development

MODULE 3: MAIN BUILDING BLOCK

- Activity
- Intents
- Fragments

MODULE 4: USER INTERFACE

- Layouts
- Constraint Layout
- Linear Layout
- Relative Layout
- Frame Layout
- Table Layout
- GridView
- ListView
- TabLayout
- Fragments

MODULE 5: INPUT CONTROLS

- Buttons
- Textfields
- EditText
- CheckBoxes
- Radio Groups and Radio Buttons
- Toggle Buttons
- Spinners
- Pickers

MODULE 6: MENUS

- Option Menu
- Context Menu
- Popup Menu
- Action Bar
- Dialogs

MODULE 7: DATA STORAGE

- Shared Preferences
- Internal Storage
- External Storage
- Room Database

MODULE 8: ANDROID APPLICATION

FUNDAMENTALS

- Android Application Building Blocks - Activities, Services,
- Broadcast Reciever.
- Activating Components
- Shutting Down components
- Lifecycle of Application
- Development tools, Manifest File

Course Curriculum

- Lifecycle of Activity
- Android App Architecture

MODULE 9: TELEPHONY MANAGER

- Reading the phone, Network, data connectivity and SIM states
- Fetching Phone Book
- Making Phone Calls

MODULE 10: ANDROID MEDIA API

- Playing Audio/Video
- Media Recording
- Controlling Camera
- Taking a Picture

MODULE 11: JETPACK COMPONENTS

- Live Data
- View Model
- Data & View Binding
- Coroutines

MODULE 12: Google Firebase

- RealTime DataBase
- Google Authentication
- Firebase Notification
- Firebase Storage

MODULE 13: FRAGMENTS

- Type of Fragments
- Fragments Communication
- Fragment Usage

MODULE 14: REST API INTEGRATION

- Retrofit
- OK HTTP
- Loading JSON
- Asyna Task & Threading

MODULE 15: BLUETOOTH AND WI-FI

- Introducing the Bluetooth Service
- Communication with Bluetooth
- Managing Your Wi-Fi
- Monitoring and Managing Your Internet Connectivity

MODULE 16: LOCATION SERVICES AND GOOGLE MAP WITH GOOGLE SEARCH MANAGER

- Finding your Location-Latitude & Longitude
- Tracking Your Position
- Creating Map-Based Activities
- Search Yourself with Google Search Manager

DART

Overview

- What is Dart..?
- Dart Introduction
- Basic Language requirement for Dart

Environment

- Setting Up the Local Environment
- Using the Text Editor
- Installing the Dart SDK
- IDE Support

Course Curriculum

Syntax

- Your First Dart Code
- Execute a Dart Program
- Dart Command-Line Options
- Keywords in Dart
- Comments in Dart

Basic Fundamentals

- Data Types
- Variables
- Functions
- Operators
- Loops
- Decision Making
- Numbers
- String

Implementation of OOPs

- Classes
- Object
- Inheritance
- Interface

Collection

- Lists
- Map
- Generics
- Libraries & Packages

FLUTTER

INTRODUCTION TO FLUTTER

- Learn to set up a new Flutter project using Android Studio.
- Understand the Widget tree and learn to use pre-made Flutter Widgets for user interface design.
- Learn to incorporate Image and Text Widgets to create simple user interfaces.
- Learn to incorporate App Icons for iOS and Android.
- Learn how to add and load image assets to Flutter projects.
- Run Flutter apps on iOS Simulator, Android Emulator and physical devices.

CREATING BEAUTIFUL UI WITH FLUTTER

- Use Hot Reload and Hot Restart to quickly refresh the app UI and understand when to use each.
- Dependencies, custom assets and fonts.
- An introduction to the Widget build method.
- Learning to use layout widgets such as Columns, Rows, Containers and Cards.
- Incorporating Material icons using the Icons class.
- Customise apps with Theme widgets.
- Refactoring widgets by extracting them as separate Widget classes.

Course Curriculum

- Create custom Flutter Widgets by combining smaller widgets
- Learn to build multi-screen Flutter apps by learning about routes and the Navigator widget.
- Understand why flutter favours composition vs. inheritance when customising widgets.

BUILDING APPS WITH STATES

- Understand the difference between Stateful and Stateless
- Widgets and when they should each be used.
- Understand how callbacks can be used detect user interaction in button widgets.
- Understand the declarative style of UI programming and how Flutter widgets react to state changes.
- Learn to import dart libraries to incorporate additional functionality.
- Build flexible layouts using the Flutter Expanded widget.
- Understand the relationship between setState(), State objects and Stateful Widgets.

FLUTTER PACKAGES

- Learn to use the Dart package manager to incorporate Flutter compatible packages into your projects
- Incorporate the audioplayers package to play sound.
- Learn more about functions in Dart and the arrow syntax.
- Learn to refactor widgets and understand Flutter's philosophy of UI as code.

STRUCTURING FLUTTER APPS

- Learn about how lists and conditionals work in Dart.
- Learn about classes and objects in Dart and how it apply to Flutter widgets.
- Understand Object Oriented Dart and how to apply the fundamentals of OOP to restructuring a Flutter app.
- Learn to use Dart Constructors to create customisable Flutter widgets.
- Apply common mobile design patterns to structure Flutter apps.
- Learn about structuring and organising Flutter apps

FLUTTER APPS WITH BACKEND DATA

- Getting location data from both iOS and Android.

Course Curriculum

- Using the http package to perform networking and get live data from open APIs.
- Flutter Database using SQLite
- Understanding how to parse JSON data using the dart:convert library.
- Understand how to pass data to State objects via the Stateful Widget.
- Use the TextField Widget to take user input.
- Understand how to pass data backwards using the Navigator widget.

FLUTTER APPS WITH FIREBASE

- Flutter with firebase Database
- Flutter with firebase Authentication
- Flutter with cloud Storage

TESTING THE APP

TROUBLESHOOTING

SUMMARY AND CONCLUSION

Project Class

- FrontEnd by XML
- Backend by java or kotlin
- Room Database for Local DB
- Firebase For server
- Write Business Logic
- Retrofit for API calling

Adobe

Uncodemy is the perfect place to start your data science career, as they provide regular live classes with doubt resolution. Moreover, they also allow students to book additional mentor - ship to sessions with industry experts to understand challenging topics better and gain industry insights. Uncodemy as highly as possible and suggest all the aspirants join Uncodemy with hesitation.

ADITYA SINGH

Company : Deloitte

Uncodemy is a good place to start up if you are looking for a career transition or build a career in Data analytics. Moreover, guest lectures by Upendra sir are very insightful. Very efficient manage to reach out for any help during train - ing. The best thing is, they also offer support in looking for jobs post training. Thank You..

RITESH SINGH

Company : Bloohash

After spending 2 years in Non-IT job, decided to switch to IT job. Uncodemy is one of the leading brand in this section.

I have complete here Soft - ware testing training course. They have very good trainers and HR team Who helps you to find the right job. The training content is very excellent and very useful to get your dream IT job. special thanks to Shivendra Sir, Ug sir, Anam Ma'am and HR department team for proper guidance and help throughout this journey. Now I'm working in the leading IT company with good package, all thanks to Uncodemy team.

NEELAM

Company : wipro

I've always wanted to create complete web applications on my own. | went for an Uncodemy Python Full Stack Course. | am 50 grateful to Uncodemy now because | can fulfil my dream. Their staff and training are 50 fruitful, They will walk you through the process of building your first full - stack Python web application. If you Want to be a good program developer, hurry up and go for the Uncodemy Python.

Full Stack Course.

Life on campus at Uncodemy is vibrant and engaging. Here's what you might experience:

1. Interactive Learning: Uncodemy fosters a dynamic learning environment. You'll engage in hands-on workshops, coding challenges, and collaborative projects, allowing you to apply what you learn in real-world scenarios.

2. Tech Culture : The campus buzzes with a tech-savvy atmosphere. From hackathons to tech talks by industry experts, immersed discussions about the latest innovations and trends in the tech world.

3. Diverse Community: You'll meet students from diverse backgrounds, all technology. This diverse community fosters a rich and perspectives.

4. Supportive Environment: Faculty and mentors are readily available to support your academic and personal growth. Whether it's tutoring, career advice, or simply a friendly chat, there's always someone willing to help.

5. Extracurricular Activities: Beyond academics, there are clubs, sports teams, and social events that provide to unwind, make friends, outside the classroom.

6. Innovation Hub: Uncodemy encourages innovation and entrepreneurship. You'll have access to resources like incubators, workshops, and networking events to develop your ideas and projects.

7. State-of-the-Art Facilities: The campus is equipped with modern facilities, including well-equipped labs, libraries, and recreational areas, providing an ideal environment for learning and relaxation.

8. Career Opportunities: Uncodemy offers career development resources such as career fairs, internships, and connections to industry partners, setting you up for success after graduation.

AGILE ACTIVITY IN UNCODEMY

Sure, here are the top 10 Agile activities in the IT industry

- 1. Daily Stand-up Meetings:** Short, daily meetings where team members discuss what they accomplished yesterday, what they plan to do today, and any obstacles they are facing.
- 2. Sprint Planning:** A meeting at the start of each sprint where the team plans the work to be completed during the sprint.
- 3. Backlog Grooming:** Regularly reviewing and refining the product backlog to ensure it contains the appropriate items, prioritized correctly.
- 4. Sprint Review:** A meeting at the end of each sprint where the team demonstrates the work completed during the sprint and gathers feedback from stakeholders.
- 5. Sprint Retrospective:** A meeting at the end of each sprint where the team reflects on what went well, what didn't, and identifies actions for improvement.
- 6. User Story Mapping:** Collaboratively visualizing the user's journey through the product to identify all possible features and prioritize them.
- 7. Agile Estimation Techniques:** Using techniques like Planning Poker or T-Shirt sizing to estimate the effort required for user stories or tasks.
- 8. Continuous Integration (CI):** Developers integrate their code into a shared repository frequently, usually multiple times a day.
- 9. Test-Driven Development (TDD):** Writing automated tests before writing the code to implement the corresponding feature.
- 10. Pair Programming:** Two programmers work together at one workstation. One writes the code while the other reviews each line as it is written. They switch roles frequently.
