Uncodemy Edutech Pvt. Ltd. was founded as a technical training institute under the Companies Act of 2013 with the main objective of training the youth in the areas of information and communication technology, such as **Artificial intelligence, machine learning, data science and analytics, business analytics, software testing, full stack development, digital marketing, web development, cyber security, ethical hacking, Cloud computing, AWS , Devops and other on-demand IT courses.**

Uncodemy has been associated with its parent company, GvCloud Secure Pvt. Ltd., Since its inception. Therefore, Uncodemy is not just a training institute but has been working as a web application development company and other service provider in the IT sector in India and abroad for many years. Uncodemy not only understands and meets the needs of the modern IT sector but also gives its students more career chances than other training facilities by focussing on practical training in accordance with client expectations.

In order to make the youth eligible for the current job vacancies, it is an essential aspect that the training curriculum is in sync with the current market demand. The curriculum of various courses offered at Uncodemy is designed keeping in mind the current market demand and the capabilities of the youth. The training program is provided as per the normset by the Ministry of Skill Development & Entrepreneurship, Government of India, and in compliance with the National Skill Quality Framework.

Through its ongoing efforts, **Uncodemy is fulfilling the vision of the Government of India to provide skill training to the youth and build a self-reliant India.** In addition to helping the young people get jobs we also assist them in finding jobs. **We rise by lifting others.**

Founder, MD & CEO
Uncodemy Edutech Pvt. Ltd.

UNCODEMY

 Interview Session	 6 Monthe internship	 Access to Class & Training Until Placement	 Communication Skills

ABOUT US

Uncodemy is one among a couple of driving organizations / in Delhi, Noida, NCR, India that give undeniable preparation in Data Science, Machine learning, Python programming, Tableau, - Deep Learning, and Artificial Intelligence. We at the collegetarget producing quality experts who can withstand the developing contest and rising intricacies in the innovative world. We are growing and leading the company of Delhi, Noida, NCR, India.

THE UNCODEMY

Is an Educational and Professional improvement Organization that has been established to propel the product and IT calling by advancing and perceiving demonstrable skill through training, counselling, gatherings and accreditation. Our Professional Dedicated Team guarantees to give you the best of specialization courses under disciplines like Data Science Machine Learning, Data Mining, Tableau, Text Mining, ReactJS, NodeJS, Angular, Python Programming, Deep Learning, and Java, network protection, programming testing, Cloud Technology, Digital advertising and a lot more with an emphasis on trustworthiness and on the web and Offline learning. We're attempting to transform our enthusiasm for IT Software Training Platform into a thriving position and occupation situated in the preparing stage without any hesitation at work.

Our aim is simple: We strive to create high-impact, hands-on experiences that prepare learners for meaningful and productive careers.

**Warm Regards,
Founder Uncodemy**

CAREERS IN DEVOPS TRAINING

SALARY PACKAGE

The results of a Devops training job is tracked in a database for engineers to review so they can fix the defect. There are times when the position can seem monotonous, but the focus of your work will constantly change to different aspects of the program, alleviating some of the repetition. You also get an early look at the latest in technology and have a hand in making sure that a program is as defect free as possible. Finally, with Devops being an area that will always grow, Devops Training have one of the most secure jobs in the tech industry.

Why Should You Choose UnCodemy?

Top MNCs

UnCodemy partners with top-tier companies to ensure that its students receive instruction from industry experts with hands-on experience in the field of Devops Training.

No. 1 Institute for the Devops Training Course

UnCodemy in Noida stands out as the premier Devops training course provider, featuring industry-experienced mentors from major corporations. With a commitment to 100% placements, it offers live project experiences, flexible online & offline training modes, and accelerated certification options catering to working professionals.

About Courses

UnCodemy follows a structured approach and comprehensive curriculum. Here are some key reasons why learning Devops training from a training program can be beneficial:

1. Access to experienced instructors who can provide personalized guidance and support.
2. Exposure to industry-relevant tools and technologies.
3. Hands-on experience with real-world datasets and projects.
4. Networking opportunities with other students and professionals in the field.
5. A structured curriculum that covers the key concepts and skills needed to succeed in Devops Training.
6. Access to job placement assistance and career counseling.

About Industry Expert Trainers

Uncodemy partners with seasoned industry professionals to provide students with first-hand knowledge and real-world applications in the realm of Devops training. These experienced instructors share their practical insights, equipping students not only with theoretical knowledge but also with the practical skills needed to succeed in the field.

About Certificate

Uncodemy is recognized by top industry bodies such as ISO and NASSCOM and is also endorsed by Skill India, a government initiative aimed at boosting skills development in the country. The certifications provided by Uncodemy are highly valued by employers, as they signify that the candidate has completed a rigorous program and has the necessary skills and knowledge to excel in the field.

Doubt Session

Uncodemy facilitates doubt sessions where students can receive individualized attention and clarification on challenging concepts. These sessions are led by experienced instructors who provide comprehensive explanations and examples, ensuring that students leave the session with a thorough understanding of the material.

Grooming Session

Soft skills training to improve communication, networking, and leadership skills. Identifying and highlighting transferable skills that may not be obvious.

CV building

Helping students build a killer resume. Ensuring that the resume includes relevant keywords to help it stand out in applicant tracking systems. Overall, it's about helping students make their resume shine and stand out from the competition.

Interview session

The goal is to prepare students for the job interview process, giving them the chance to practice their communication and interpersonal skills, and helping them feel more confident and prepared for the real thing.

Mock interview

Uncodemy uses mock interviews in its IT training program as a tool to help students refine their interview skills and prepare for job interviews in the tech industry. The mock interviews are designed to replicate the pressure and format of a real interview, without the actual job at stake.

Course Curriculum

Introduction to DevOps

- DevOps Principles in detail
- DevOps Engineer Skills in the market
- Knowing DevOps Delivery Pipeline
- Market trend of DevOps
- DevOps Technical Challenges
- Tools we use in DevOps

DevOps on Cloud

- Essentials of Cloud computing?
- Cloud and virtualization architecture
- Cloud deployment architecture
- Cloud providers – An overview
- Why we need DevOps on Cloud?
- Introducing to Amazon web services

GIT – A Version controlling tool

- Knowing about Version control
- Git – A CLI
- Essentials of GIT in industry
- How to setup GIT
- Installing Git
- First-Time Git Setup
- Getting a Git Repository
- Working with various commands in GIT

Recording Changes to the Repository

- How to check the Status of Your Files
- How to track New Files

- Staging our modified files
- Ignoring Files from GIT
- Viewing Your Unstaged and Staged Changes
- How to commit Your Changes
- Skipping the Staging Area and commit
- Removing Files from GIT

Viewing the Commit History

- Limiting Log Output
- Using a GUI to Visualize History

Undoing Things

- Changing Your Last Commit
- Unstaging a Staged File
- Unmodifying a Modified File

Working with Remotes

- Showing Your Remotes
- Adding Remote Repositories
- Fetching and Pulling from Your Remotes
- Pushing to Your Remotes
- Inspecting a Remote
- Removing and Renaming Remotes

Branching and Merging in Git

- What a Branch Is
- Basic in Branching and Merging
- Branch Management in GIT
- Branching Workflows and its usage
- Remote Branches – create and delete
- Rebasing

Course Curriculum

Git workflows Git cheat sheet

Jenkins

- Essentials of Continuous Integration
- An example scenario where CI is used
- Know about Jenkins and its architecture in detail
- Jenkins tool Management in detail
- Know about User management in Jenkins
- Authentication
- Jenkins own database user creation
- Options to enable integration with LDAP

Authorization

- Matrix based authorization
- Project based authorization

Overview of Maven

- Maven project structure
- Maven plugins
- Project Object Model (POM) – fundamental unit of work in Maven project
- Maven build lifecycle
- Adding external dependencies to maven pom.xml
- Maven build and test project

Creating jobs and automatic build settings

- What is Jenkins Pipeline?

- Why Pipeline?
- Integration with GIT
- How to enable project-based authorization for a job
- Source code management while creating jobs
- Triggering automated build
- Maven job setup
- Know about post build options for jobs like notifications, trigger another build, publishing reports, etc.

Adding a slave node to Jenkins

- Building Delivery Pipeline
- Notification settings in Jenkins
- Plugin management in Jenkins

Docker

Introduction

- Real-world Shipping Transportation Challenges
- Introducing Docker and its technology
- Understanding of Docker images and containers

Working with container

- How to Share and copy a container
- Container Life Cycle
- How to use Base Image and customize
- Creation of Docker File

Course Curriculum

- How to Publish Image on Docker Hub

Introduction to Docker Networking

- Network Types in docker technology
- Docker Container Networking
- Docker Compose – An introduction

Docker Swarm – An introduction

- Use Docker Compose to create php, wordpress, mysql
- How to Start Containers on a Cluster with Docker Swarm
- Creating and Scaling an application in Docker swarm

Kubernetes

- Introduction to Kubernetes
- Kubernetes Cluster Architecture — An overview
- Understanding concepts of Pods, Replica sets, deployments and namespaces
- Understanding the concepts of services and networking
- Persistent volumes and persistent volume claims —an overview
- Design of Pods
- Understanding labels, selectors, jobs, and schedulers

Ansible

Introducing Ansible – A configuration management tool

- Basics / What Will Be Installed
- Understanding Ansible architecture
- Control Machine Requirements
- Managed Node Requirements

Inventory

- Hosts and Groups
- Host Variables
- Group Variables

Learn various ansible Modules

How to use adhoc commands

- Parallelism and Shell Commands
- File Transfer
- Managing Packages
- Users and Groups
- Deploying From Source Control
- Managing Services

Introduction to YAML script

Playbook

- About Playbooks
- Playbook Language Example – YAML
- How to Write Playbooks
- Tasks in Playbooks

Course

Curriculum

- Understanding about various tasks in playbook
- Introduction to Handlers and variables
- Learn about using handlers, variables in the playbook
- Become (Privilege Escalation)

Roles

- Role Directory Structure
- Using Roles
- Role Duplication and Execution
- Role Default Variables
- Role Dependencies
- Role Search Path
- Ansible Galaxy

Including and Importing

- Includes vs. Imports
- Importing Playbooks
- Including and Importing Task Files
- Including and Importing Roles

UNCODEMY LIFE

IN CAMPUS

Life on campus at Uncodemy is vibrant and engaging. Here's what you might experience:

1. Interactive Learning: Uncodemy fosters a dynamic learning environment. You'll engage in hands-on workshops, coding challenges, and collaborative projects, allowing you to apply what you learn in real-world scenarios.

2. Tech Culture: The campus buzzes with a tech-savvy atmosphere. From hackathons to tech talks by industry experts, immersed discussions about the latest innovations and trends in the tech world.

3. Diverse Community: You'll meet students from diverse backgrounds, all technology. This diverse community fosters a rich and perspectives.

4. Supportive Environment: Faculty and mentors are readily available to support your academic and personal growth. Whether it's tutoring, career advice, or simply a friendly chat, there's always someone willing to help.

5. Extracurricular Activities: Beyond academics, there are clubs, sports teams, and social events that provide to unwind, make friends, outside the classroom.

6. Innovation Hub: Uncodemy encourages innovation and entrepreneurship. You'll have access to resources like incubators, workshops, and networking events to develop your ideas and projects.

7. State-of-the-Art Facilities: The campus is equipped with modern facilities, including well-equipped labs, libraries, and recreational areas, providing an ideal environment for learning and relaxation.

8. Career Opportunities: Uncodemy offers career development resources such as career fairs, internships, and connections to industry partners, setting you up for success after graduation.

INDUSTRIAL VISIT & COLLEGE SEMINAR

AGILE ACTIVITY IN UNCODEMY

Sure, here are the top 10 Agile activities in the IT industry

- 1. Daily Stand-up Meetings:** Short, daily meetings where team members discuss what they accomplished yesterday, what they plan to do today, and any obstacles they are facing.
- 2. Sprint Planning:** A meeting at the start of each sprint where the team plans the work to be completed during the sprint.
- 3. Backlog Grooming:** Regularly reviewing and refining the product backlog to ensure it contains the appropriate items, prioritized correctly.
- 4. Sprint Review:** A meeting at the end of each sprint where the team demonstrates the work completed during the sprint and gathers feedback from stakeholders.
- 5. Sprint Retrospective:** A meeting at the end of each sprint where the team reflects on what went well, what didn't, and identifies actions for improvement.
- 6. User Story Mapping:** Collaboratively visualizing the user's journey through the product to identify all possible features and prioritize them.
- 7. Agile Estimation Techniques:** Using techniques like Planning Poker or T-Shirt sizing to estimate the effort required for user stories or tasks.
- 8. Continuous Integration (CI):** Developers integrate their code into a shared repository frequently, usually multiple times a day.
- 9. Test-Driven Development (TDD):** Writing automated tests before writing the code to implement the corresponding feature.
- 10. Pair Programming:** Two programmers work together at one workstation. One writes the code while the other reviews each line as it is written. They switch roles frequently.

Uncodemy is the perfect place to start your data science career, as they provide regular live classes with doubt resolution. Moreover, they also allow students to book additional mentor - ship to sessions with industry experts tounderstand challenging topics better and gain industry insights. Uncodemy as highly as possible and suggest all the aspirants join Uncodemy with hesitation.

ADITYA SINGH

Company : Deloitte

Uncodemy is a good place to start up if you are looking for a career transition or build a career in Data analytics. Moreover, guest lectures by Upendra sir are very insightful. Very efficient manage to reach out for any help during train - ing. The best thing is, they also offer support in looking for jobs post training. Thank You..

RITESH SINGH

Company : Bloohash

After spending 2 years in Non-IT job, decided to switch to IT job. Uncodemy is one of the leading brand in this section.

I have complete here Soft - ware testing training course. They have very good trainers and HR team Who helps you to find the right job. The training content is very excellent and very useful to get your dream IT job. special thanks to Shivendra Sir, Ug sir, Anam Ma'am and HR department team for proper guidance and help throughout this journey. Now I'm working in the leading IT company with good package, all thanks to Uncodemy team.

NEELAM

Company : wipro

I've always wanted to create complete web applications on my own. | went for an Uncodemy Python Full Stack Course. | am 50 grateful to Uncodemy now because | can fulfil my dream. Their staff and training are 50 fruitful, They will walk you through the process of building your first full - stack Python web application. If you Want to be a good program developer, hurry up and go for the Uncodemy Python.

Full Stack Course.

SUCCESS STORIES

AKSHAY PATIL

Company
Annalect

My experience with Uncodemy has been very enriching. Being a student from a completely non IT background has never been a difficulty because of their practical ways of teaching and hands on case studies. The faculty here is always there to guide and help the students in solving their doubts. Uncodemy also provides lifetime placement assistance. I would highly recommend anyone interested in the Data Science course and Data Analytics course to go to this institution. Thank You.

SAURABH MISHRA

Company : KPMG

Best IT Training institute in Delhi
NCR for Data Analytics and Data
Science Course!!!

I am from Non-IT background and joined for Data science and ML course. I got more support and guidance from the trainers. Upendra Sir and Irshad Sir Trainers are more friendly and supportive. Able to learn coding language quickly because of trainers teachings. Thank you trainers and Uncodemy team.

ADITYA SINGH

Company : Deloitte

I joined the Data Analytics course in Noida from Uncodemy. Upendra sir is well experienced & stupendous teaching, I really obtained more knowledge and also real-time scenarios. if you aspire to learn Data Analytics, Data Science, or Python and searching for an awesome trainer to help with your learning journey. then blindly go ahead and enroll in Uncodemy. By the end of the classes most of the topics will be registered into your memory and you will get a fair idea of how to implement them in real-time scenarios. I'm lucky to find the right trainer and the best training institute in my learning journey. Thank You

NEHA SHARMA

Company : Infosys

"I can't speak highly enough about Uncodemy's Digital Marketing course. It's been a transformative experience for my career. The course content was up-to-date and comprehensive, covering all aspects of digital marketing from SEO to social media, PPC, and analytics. The instructors were not only experts in their fields but also passionate about teaching. What truly sets Uncodemy apart is their practical approach. I got to work on real campaigns and projects, which gave me the hands-on experience I needed. The support from both instructors and fellow students made the journey enjoyable and engaging. Thanks to Uncodemy, I now feel confident in my digital marketing skills and have advanced my career. If you're looking to excel in digital marketing, look no further than Uncodemy. It's a game-changer.
