Uncodemy Edutech Pvt. Ltd. was founded as a technical training institute under the Companies Act of 2013 with the main objective of training the youth in the areas of information and communication technology, such as **Artificial intelligence, machine learning, data science and analytics, business analytics, software testing, full stack development, digital marketing, web development, cyber security, ethical hacking, Cloud computing, AWS , Devops and other on-demand IT courses.**

Uncodemy has been associated with its parent company, GvCloud Secure Pvt. Ltd., Since its inception. Therefore, Uncodemy is not just a training institute but has been working as a web application development company and other service provider in the IT sector in India and abroad for many years. Uncodemy not only understands and meets the needs of the modern IT sector but also gives its students more career chances than other training facilities by focussing on practical training in accordance with client expectations.

In order to make the youth eligible for the current job vacancies, it is an essential aspect that the training curriculum is in sync with the current market demand. The curriculum of various courses offered at Uncodemy is designed keeping in mind the current market demand and the capabilities of the youth. The training program is provided as per the normset by the Ministry of Skill Development & Entrepreneurship, Government of India, and in compliance with the National Skill Quality Framework.

Through its ongoing efforts, **Uncodemy is fulfilling the vision of the Government of India to provide skill training to the youth and build a self-reliant India.** In addition to helping the young people get jobs we also assist them in finding jobs. **We rise by lifting others.**
