Uncodemy Edutech Pvt. Ltd. was founded as a technical training institute under the Companies Act of 2013 with the main objective of training the youth in the areas of information and communication technology, such as **Artificial intelligence, machine learning, data science and analytics, business analytics, software testing, full stack development, digital marketing, web development, cyber security, ethical hacking, Cloud computing, AWS , Devops and other on-demand IT courses.**

Uncodemy has been associated with its parent company, GvCloud Secure Pvt. Ltd., Since its inception. Therefore, Uncodemy is not just a training institute but has been working as a web application development company and other service provider in the IT sector in India and abroad for many years. Uncodemy not only understands and meets the needs of the modern IT sector but also gives its students more career chances than other training facilities by focussing on practical training in accordance with client expectations.

In order to make the youth eligible for the current job vacancies, it is an essential aspect that the training curriculum is in sync with the current market demand. The curriculum of various courses offered at Uncodemy is designed keeping in mind the current market demand and the capabilities of the youth. The training program is provided as per the normset by the Ministry of Skill Development & Entrepreneurship, Government of India, and in compliance with the National Skill Quality Framework.

Through its ongoing efforts, **Uncodemy is fulfilling the vision of the Government of India to provide skill training to the youth and build a self-reliant India.** In addition to helping the young people get jobs we also assist them in finding jobs. **We rise by lifting others.**

CAREERS IN UI/UX DESIGNING

SALARY PACKAGE

The results of a UI/UX Designing job is tracked in a database engineers to review so they can fix the defect. There are times when the position can seem monotonous, but the focus of your work will constantly change to different aspects of the program, alleviating some of the repetition. You also get an early look at the latest in technology and have a hand in making sure that a program is as defect free as possible. Finally, with Marketing being an area that will always grow, Marketing have one of the most secure jobs in the tech industry.

Why Should You Choose UnCodemy?

Top MNCs

UnCodemy partners with top-tier companies to ensure that its students receive instruction from industry experts with hands-on experience in the field of UI/UX Designing.

No. 1 Institute for the UI/UX Designing.

UnCodemy in Noida stands out as the premier UI/UX Designing course provider, featuring industry-experienced mentors from major corporations. With a commitment to 100% placements, it offers live project experiences, flexible online & offline training modes, and accelerated certification options catering to working professionals.

About Courses

UnCodemy follows a structured approach and comprehensive curriculum. Here are some key reasons why learning UI/UX Designing from a training program can be beneficial:

1. Access to experienced instructors who can provide personalized guidance and support.
2. Exposure to industry-relevant tools and technologies.
3. Hands-on experience with real-world datasets and projects.
4. Networking opportunities with other students and professionals in the field.
5. A structured curriculum that covers the key concepts and skills needed to succeed in UI/UX Designing.
6. Access to job placement assistance and career counseling.

About Industry Expert Trainers

Uncodemy partners with seasoned industry professionals to provide students with first-hand knowledge and real-world applications in the realm of UI/UX Designing. These experienced instructors share their practical insights, equipping students not only with theoretical knowledge but also with the practical skills needed to succeed in the field.

About Certificate

Uncodemy is recognized by top industry bodies such as ISO and NASSCOM and is also endorsed by Skill India, a government initiative aimed at boosting skills development in the country. The certifications provided by Uncodemy are highly valued by employers, as they signify that the candidate has completed a rigorous program and has the necessary skills and knowledge to excel in the field.

Doubt Session

Uncodemy facilitates doubt sessions where students can receive individualized attention and clarification on challenging concepts. These sessions are led by experienced instructors who provide comprehensive explanations and examples, ensuring that students leave the session with a thorough understanding of the material.

Grooming Session

Soft skills training to improve communication, networking, and leadership skills. Identifying and highlighting transferable skills that may not be obvious.

CV building

Helping students build a killer resume. Ensuring that the resume includes relevant keywords to help it stand out in applicant tracking systems. Overall, it's about helping students make their resume shine and stand out from the competition.

Interview session

The goal is to prepare students for the job interview process, giving them the chance to practice their communication and interpersonal skills, and helping them feel more confident and prepared for the real thing.

Mock interview

Uncodemy uses mock interviews in its IT training program as a tool to help students refine their interview skills and prepare for job interviews in the tech industry. The mock interviews are designed to replicate the pressure and format of a real interview, without the actual job at stake.

 Interview Session	 6 Monthe internship	 Access to Class & Training Until Placement	

Top Skills and Tools Covered

Course Curriculum

UI/UX Development Curriculum

1. Introduction to UI/UX

- UI (User Interface) refers to the visual elements and interactive components of a digital product that users interact with.
- UX (User Experience) focuses on the overall experience and satisfaction of users while interacting with a product or system.
- Understanding the difference between UI and UX is crucial to grasp the holistic nature of UI/UX design.

2. User Research

- User research involves gathering insights about the target audience to inform design decisions.
- User interviews and surveys help understand user needs, preferences, and pain points.
- Creating user personas and scenarios helps visualize and empathize with target users.
- Analyzing user behavior through data collection and observation guides the design process.

3. Information Architecture

- Information architecture is about organizing and structuring content to enhance navigation and findability.
- Sitemaps provide a visual representation of a website's structure and hierarchy
- User flows depict the paths users take to achieve their goals within a system.

- Wireframing is the process of creating low-fidelity layouts to outline the structure and basic functionality of a design.

4. Interaction Design

- Interaction design focuses on designing interactive elements that facilitate smooth user interactions.
- Understanding Gestalt principles and visual perception helps create visually appealing and intuitive interfaces.
- Micro-interactions are small, subtle design elements that provide feedback and enhance the user experience.
- Transitions and animations contribute to the overall usability and engagement of a design

5. Visual Design

- Visual design deals with the aesthetics and visual aspects of a product.
- Color theory and color psychology help select appropriate color schemes that evoke desired emotions and enhance usability.
- Typography involves choosing fonts and arranging text in a visually appealing and readable manner.
- Layout and composition principles guide the arrangement of visual elements for balance and hierarchy.

Course Curriculum

6. Usability Testing and Evaluation

- Usability testing involves observing and analyzing user interactions with a design to assess its effectiveness.
- Heuristic evaluation is a systematic inspection of a design's usability based on established principles.
- Usability tests help identify pain points, gather feedback, and validate design decisions.
- A/B testing compares two or more design variations to determine which performs better.

7. Mobile and Responsive Design

- Mobile design focuses on creating interfaces optimized for smaller screens and touch interactions.
- Responsive design ensures that a design adapts to different screen sizes and devices.
- Mobile-specific considerations include prioritizing content, designing touch-friendly interactions, and optimizing performance.

8. Accessibility

- Accessibility aims to make digital products usable by people with disabilities.
- Understanding WCAG helps design inclusive interfaces.
- Inclusive design principles focus on creating products that are accessible to all users, regardless of disabilities or limitations.

9. UI/UX Tools

- Design software like Sketch, Figma, or Adobe XD are commonly used for creating UI/UX designs.
- Prototyping tools like InVision, Marvel, or Framer facilitate interactive and realistic prototypes.
- Collaboration and version control tools (e.g., Zeplin, Abstract) help streamline the design process within teams.

10. Industry Trends & Case Studies

- Staying updated with current design trends helps create modern and relevant designs.
- Analyzing successful UI/UX case studies provides insights into effective design strategies and methodologies.
- Design blogs, forums, and conferences offer opportunities to learn from industry experts and stay connected with the UI/UX community.

8. Career Opportunities: Uncodemy offers career development resources such as career fairs, internships, and connections to industry partners, setting you up for success after graduation.

INDUSTRIAL VISIT & COLLEGE SEMINAR

AGILE ACTIVITY IN UNCODEMY

Sure, here are the top 10 Agile activities in the IT industry

- 1. Daily Stand-up Meetings:** Short, daily meetings where team members discuss what they accomplished yesterday, what they plan to do today, and any obstacles they are facing.
- 2. Sprint Planning:** A meeting at the start of each sprint where the team plans the work to be completed during the sprint.
- 3. Backlog Grooming:** Regularly reviewing and refining the product backlog to ensure it contains the appropriate items, prioritized correctly.
- 4. Sprint Review:** A meeting at the end of each sprint where the team demonstrates the work completed during the sprint and gathers feedback from stakeholders.
- 5. Sprint Retrospective:** A meeting at the end of each sprint where the team reflects on what went well, what didn't, and identifies actions for improvement.
- 6. User Story Mapping:** Collaboratively visualizing the user's journey through the product to identify all possible features and prioritize them.
- 7. Agile Estimation Techniques:** Using techniques like Planning Poker or T-Shirt sizing to estimate the effort required for user stories or tasks.
- 8. Continuous Integration (CI):** Developers integrate their code into a shared repository frequently, usually multiple times a day.
- 9. Test-Driven Development (TDD):** Writing automated tests before writing the code to implement the corresponding feature.
- 10. Pair Programming:** Two programmers work together at one workstation. One writes the code while the other reviews each line as it is written. They switch roles frequently.

SUCCESS STORIES

BABITA

Company
Adobe

Uncodemy is the perfect place to start your data science career, as they provide regular live classes with doubt resolution. Moreover, they also allow students to book additional mentor - ship to sessions with industry experts tounderstand challenging topics better and gain industry insights. Uncodemy as highly as possible and suggest all the aspirants join Uncodemy with hesitation.

ADITYA SINGH

Company : Deloitte

Uncodemy is a good place to start up if you are looking for a career transition or build a career in Data analytics. Moreover, guest lectures by Upendra sir are very insightful. Very efficient manage to reach out for any help during train - ing. The best thing is, they also offer support in looking for jobs post training. Thank You..

RITESH SINGH

Company : Bloohash

After spending 2 years in Non-IT job, decided to switch to IT job. Uncodemy is one of the leading brand in this section.

I have complete here Soft - ware testing training course. They have very good trainers and HR team Who helps you to find the right job. The training content is very excellent and very useful to get your dream IT job. special thanks to Shivendra Sir, Ug sir, Anam Ma'am and HR department team for proper guidance and help throughout this journey. Now I'm working in the leading IT company with good package, all thanks to Uncodemy team.

NEELAM

Company : wipro

I've always wanted to create complete web applications on my own. | went for an Uncodemy Python Full Stack Course. | am 50 grateful to Uncodemy now because | can fulfil my dream. Their staff and training are 50 fruitful, They will walk you through the process of building your first full - stack Python web application. If you Want to be a good program developer, hurry up and go for the Uncodemy Python.

Full Stack Course.

SUCCESS STORIES

AKSHAY PATIL

Company
Annalect

My experience with Uncodemy has been very enriching. Being a student from a completely non IT background has never been a difficulty because of their practical ways of teaching and hands on case studies. The faculty here is always there to guide and help the students in solving their doubts. Uncodemy also provides lifetime placement assistance. I would highly recommend anyone interested in the Full stack developer course and to go to this institution. Thank You.

SAURABH MISHRA

Company : KPMG

Best IT Training institute in Delhi
NCR for Full stack developer

I am from Non-IT background and joined for Full stack developer. I got more support and guidance from the trainers. Upendra Sir and Irshad Sir Trainers are more friendly and supportive. Able to learn coding language quickly because of trainers teachings. Thank you trainers and Uncodemy team.

ADITYA SINGH

Company : Deloitte

I joined the Full stack Dev. course in Noida from Uncodemy. Upendra sir is well experienced & stupendous teaching, I really obtained more knowledge and also real-time scenarios. if you aspire to learn Full stack developer or Java and Python for an awesome trainer to help with your learning journey. then blindly go ahead and enroll in Uncodemy. By the end of the classes most of the topics will be registered into your memory and you will get a fair idea of how to implement them in real-time scenarios. I'm lucky to find the right trainer and the best training institute in my learning journey. Thank You

NEHA SHARMA

Company : Infosys

"I can't speak highly enough about Uncodemy's Full stack developer course. It's been a transformative experience for my career. The course content was up-to-date and comprehensive, covering all aspects of digital marketing from SEO to social media, PPC, and analytics. The instructors were not only experts in their fields but also passionate about teaching. What truly sets Uncodemy apart is their practical approach. I got to work on real campaigns and projects, which gave me the hands-on experience I needed. The support from both instructors and fellow students made to journey enjoyable and engaging. Thanks to Uncodemy, I now feel confident in my Full stack developer skills and have advanced my career. If you're looking to excel in Full stack developer, look no further than Uncodemy. It's a game-changer.
