Uncodemy Edutech Pvt. Ltd. was founded as a technical training institute under the Companies Act of 2013 with the main objective of training the youth in the areas of information and communication technology, such as **Artificial intelligence, machine learning, data science and analytics, business analytics, software testing, full stack development, digital marketing, web development, cyber security, ethical hacking, Cloud computing, AWS , Devops and other on-demand IT courses.**

Uncodemy has been associated with its parent company, GvCloud Secure Pvt. Ltd., Since its inception. Therefore, Uncodemy is not just a training institute but has been working as a web application development company and other service provider in the IT sector in India and abroad for many years. Uncodemy not only understands and meets the needs of the modern IT sector but also gives its students more career chances than other training facilities by focussing on practical training in accordance with client expectations.

In order to make the youth eligible for the current job vacancies, it is an essential aspect that the training curriculum is in sync with the current market demand. The curriculum of various courses offered at Uncodemy is designed keeping in mind the current market demand and the capabilities of the youth. The training program is provided as per the normset by the Ministry of Skill Development & Entrepreneurship, Government of India, and in compliance with the National Skill Quality Framework.

Through its ongoing efforts, **Uncodemy is fulfilling the vision of the Government of India to provide skill training to the youth and build a self-reliant India.** In addition to helping the young people get jobs we also assist them in finding jobs. **We rise by lifting others.**

**Founder, MD & CEO**  
**Uncodemy Edutech Pvt. Ltd.**

# UNCODEMY

## VISION & MISSION

**"Uncodemy is a team of high-class working professionals associated with a Fortune 500 company. We are on a mission to employ millions. If you want a job or a career change, Uncodemy is the right place for you. We will teach you how to work with the latest technology."**

### PROGRAM HIGHLIGHTS

|                                                                                                                                                                                                               |                                                                                                                  |                                                                                                                                    |                                                                                                                 |

## ABOUT US

Uncodemy is one among a couple of driving organizations / in Delhi, Noida, NCR, India that give undeniable preparation in Data Science, Machine learning, Python programming, Tableau, - Deep Learning, and Artificial Intelligence UI/UX Designing Graphic Design. We at the college get producing quality experts who can withstand the developing contest and rising intricacies in the innovative world. We are growing and leading the company of Delhi, Noida, NCR, India.

## THE UNCODEMY

Is an Educational and Professional improvement Organization that has been established to propel the product and IT calling by advancing and perceiving demonstrable skill through training, counselling, gatherings and accreditation. Our Professional Dedicated Team guarantees to give you the best of specialization courses under disciplines like Data Science Machine Learning, Data Mining, Tableau, Text Mining, ReactJS, NodeJS, Angular, Python Programming, Deep Learning, and Java, network protection, programming testing, Cloud Technology, Digital advertising and a lot more with an emphasis on trustworthiness and on the web and Offline learning. We're attempting to transform our enthusiasm for IT Software Training Platform into a thriving position and occupation situated in the preparing stage without any hesitation at work.

**Our aim is simple: We strive to create high-impact, hands-on experiences that prepare learners for meaningful and productive careers.**

**Warm Regards,  
Founder Uncodemy**

# CAREERS IN WEB DESIGNING

## SALARY PACKAGE

The results of a Web Designing job is tracked in a database engineers to review so they can fix the defect. There are times when the position can seem monotonous, but the focus of your work will constantly change to different aspects of the program, alleviating some of the repetition. You also get an early look at the latest in technology and have a hand in making sure that a program is as defect free as possible. Finally, with Marketing being an area that will always grow, Marketing have one of the most secure jobs in the tech industry.

# Why Should You Choose UnCodemy?

---

## Top MNCs

UnCodemy partners with top-tier companies to ensure that its students receive instruction from industry experts with hands-on experience in the field of Web Designing.

## No. 1 Institute for the Web Designing.

UnCodemy in Noida stands out as the premier Web Designing course provider, featuring industry-experienced mentors from major corporations. With a commitment to 100% placements, it offers live project experiences, flexible online & offline training modes, and accelerated certification options catering to working professionals.

## About Courses

UnCodemy follows a structured approach and comprehensive curriculum. Here are some key reasons why learning Web Designing from a training program can be beneficial:

1. Access to experienced instructors who can provide personalized guidance and support.
2. Exposure to industry-relevant tools and technologies.
3. Hands-on experience with real-world datasets and projects.
4. Networking opportunities with other students and professionals in the field.
5. A structured curriculum that covers the key concepts and skills needed to succeed in Web Designing.
6. Access to job placement assistance and career counseling.

## About Industry Expert Trainers

Uncodemy partners with seasoned industry professionals to provide students with first-hand knowledge and real-world applications in the realm of Web Designing. These experienced instructors share their practical insights, equipping students not only with theoretical knowledge but also with the practical skills needed to succeed in the field.

## About Certificate

Uncodemy is recognized by top industry bodies such as ISO and NASSCOM and is also endorsed by Skill India, a government initiative aimed at boosting skills development in the country. The certifications provided by Uncodemy are highly valued by employers, as they signify that the candidate has completed a rigorous program and has the necessary skills and knowledge to excel in the field.

## Doubt Session

Uncodemy facilitates doubt sessions where students can receive individualized attention and clarification on challenging concepts. These sessions are led by experienced instructors who provide comprehensive explanations and examples, ensuring that students leave the session with a thorough understanding of the material.

## Grooming Session

Soft skills training to improve communication, networking, and leadership skills. Identifying and highlighting transferable skills that may not be obvious.

## CV building

Helping students build a killer resume. Ensuring that the resume includes relevant keywords to help it stand out in applicant tracking systems. Overall, it's about helping students make their resume shine and stand out from the competition.

## Interview session

The goal is to prepare students for the job interview process, giving them the chance to practice their communication and interpersonal skills, and helping them feel more confident and prepared for the real thing.

## Mock interview

Uncodemy uses mock interviews in its IT training program as a tool to help students refine their interview skills and prepare for job interviews in the tech industry. The mock interviews are designed to replicate the pressure and format of a real interview, without the actual job at stake.

# Key Features

|                                                                                                                        |                                                                                                                       |                                                                                                                                           |                                                                                                                   |

# Course Curriculum

## Web Designing Course Curriculum

- Introduction to Web Technologies
- Careers in Web Technologies and Job Roles
- How the Website Works?
- Client and Server Scripting Languages
- Difference between a Web Designer and Web Developer
- Types of Websites (Static and Dynamic Websites)
- Responsive design and layout

### 1. Photoshop

#### Model-1

- Introduction to Adobe Photoshop
- Color mode & resolution
- Types of Graphics
- Export image
- Animated Image
- Tools
- Ruler and scaling

#### Model-2

- Create Logos
- Photos masking
- Layer Mask
- Vector Mask
- Create Clipping Mask
- Quick Mask
- Text Mask

#### Model-3

- 3D tools
- Smart Objects
- Merge Layers
- Group Layers
- Matting
- Define Brush
- Define Pattern
- Define Custom shapes
- Layer Styles
- Blending Options
- Advanced Blending
- View Menu / Window Menu
- Filter Effects
- Image Adjustments
- Realtime Website Layout Design

### 2. HTML 4.0

#### Model-1

- What is Markup Language
- Basic Structure of HTML
- Document Overview
- The Structure Tags
- Getting Started With HTML
- Writing the Code
- Head Section
- Meta Tags
- External Link Tags

# Course Curriculum

- HTML Tags
- HEAD Tags
- Title Tags
- Body Tags
- Displaying a web page in a web Browser

## HTML Elements

- Block level elements
- Inline elements
- Empty elements

## Working with Forms

- Creating a Form
- Form Tag
- POST and GET Method
- Text Input, Text Area, Checkbox, Image Input and Radio
- Select Option
- Option Group
- File Upload and Hidden Fields
- Submit Button, Reset Button
- Relation between HTML Form and PHP

## Adding Special Characters

### Block Oriented Elements

- Defining Paragraphs and new Lines
- Inserting Spaces
- Perforating the Text
- Changing Background Color

## Model-2

### List

- Ordered List
- Unordered List
- Definition List

### Attributes of List

- Using Type attribute with Unordered list
- Using Stat attribute with Ordered List
- Some other elements
- Visual Markup

## Uniform Resource Locators

- Types of URLs
- Absolute URLs
- Relative URLs
- Document-Relative URLs
- Server-relative URLs

## Hypertext Links

- Why links fail?

## Images

- Adding Images
- Adding Border to an image

## Model-3

### Tables

- How to create table
- Adding Border to a Table

# Course Curriculum

- Apply Formatting Features to Table
- Merge row and columns

## Introduction to style Sheets

- How style sheets work
- Style Sheet Structure

## Changing the Background

- Changing the color of the text
- Changing the front
- Changing the Indent of the text
- Changing the Line Spacing
- Hide a Style Sheet

## Model-4

### Creating Style Classes

- Div
- Span
- Frame
- Layer
- Meta
- HTML Frames
- Frame
- iframe

## 3. HTML5

### Model-1

- Introduction to HTML5
- Introduction to HTML5
- What's new in HTML5

## HTML5 Syntax

- The DOCTYPE
- The <script> tag
- The <link> tag
- HTML5 Document

## Model-2

### New input Elements

- Color
- Date
- Datetime
- datetime-local
- email
- month
- number
- range
- search
- tel
- time
- url
- week

### New Input attributes

- autofocus
- formaction
- formmethod
- formnovalidate
- height and width

# Course Curriculum

- list
- min and max
- multiple
- pattern (regexp)
- placeholder
- required
- step

## Model-3

### Audio and Video

- <audio>
- <video>
- <source>

## New Structural Elements

- <details>
- <dialog>
- <summary>
- <meter>
- <main>
- <header>&<footer>
- <section>
- <aside>
- <figure>

## Model-4

### SVG

- What is SVG?
- SVG Advantages

- SVG in HTML
- SVG Shapes
- SVG Text
- SVG Stroke properties
- SVG Animation

## Model-5

### Canvas

- What is canvas?
- Lines
- Curves
- Paths
- Shapes
- Color, gradients
- Image
- Arc
- Text
- Shadow

## HTML5 APIs

- Google Map
- Drag & Drop

## 4. CSS

### Model-1

- CSS Introduction
- CSS Syntax
- CSS Id & Class
- Types of CSS links

# Course Curriculum

## Colors and Backgrounds

- color
- background-color
- background-image
- background-repeat
- background-position
- background-attachment
- background

## Model-2

### Text and Fonts

- font
- font-family
- font-size
- font-weight
- font-style
- line-height
- letter-spacing
- word-spacing
- text-align
- text-decoration
- text-transform
- white-space

## Model-3

### Lists

- list-style
- list-style-type
- list-style-image
- list-style-position

## Tables

- table-layout
- border-collapse
- border-spacing

## Model-4

### CSS Selectors

- Universal Selector
- Type Selector
- Class Selector
- ID Selector
- Child Selector
- Descendant Selector
- Attribute Selector
- Adjacent Sibling Selector
- General Sibling Selector
- Query Selector

## Model-5

### CSS Box Model

- CSS Border
- CSS Outline
- CSS Margin
- CSS Padding

## Model-6

### CSS Advanced

- CSS Grouping/Nesting
- CSS Dimension

# Course Curriculum

- CSS Display
- CSS Positioning
- CSS Floating
- CSS Align
- CSS Pseudo-class
- CSS Pseudo-element
- CSS Navigation Bar
- CSS Image Gallery
- CSS Image Opacity
- CSS Attribute Selectors
- Styling Links

## 5. CSS 3.0

### Model-1

#### Introduction to CSS3.0

#### What's new in CSS 3.0

#### Border

- border-image
- border-radius

#### CSS Shadows

- Text-shadow
- Box-shadow

#### Background

- background-clip
- background-size
- background-origin
- background-image

### Model-2

#### Outline

#### Transitions

- transition
- transition-delay
- transition-duration
- transition-property

#### Transform

#### 2D Transforms

- transform
- matrix()
- translate(x,y)
- scale(x,y)
- rotate(angle)
- skew(x-angle,y-angle)

### Model-3

#### 3D Transforms

- transform
- transform-style
- perspective
- transform-origin

### Model-4

#### Animations

- @keyframes
- animation

# Course Curriculum

- animation-direction
- animation-duration
- animation-name

## Model-5

### Selectors

- CSS combinations
- Pseudo Elements

### Gradients

- Linear Gradients
- Radial Gradients

## Multiple Columns

- column-count
- column-fill
- column-gap
- column-width
- columns
- column-rule
- column-rule-color
- column-rule-style
- column-rule-width

## Model-6

### User Interface

- resize
- box-sizing
- outline-offset

### CSS Filters

- Blur
- Brightness
- Contrast
- Grayscale
- Hue-rotate
- Invert
- Opacity
- Saturate
- Sepia
- Drop-shadow

## Model-7

### Media Query

- What is Responsive Web Design
- Intro to the Viewport
- The Viewport Tag
- Media Queries
- Fluid Layouts
- Tablet Styles
- Mobile Styles
- Making a Mobile Drop-down Menu
- Responsive Images & Polyfills

## Model-8

### Web Fonts

- @font-face
- font-family
- src
- font-stretch

# Course Curriculum

- font-style
- font-weight

## Flexbox

- flex-grow
- flex-shrink
- flex-basis
- flex
- flex-wrap
- flex-direction
- flex-flow
- justify-content
- align-items
- order

## 6. Dreamweaver cc

### Model-1

#### Interface

- choosing a workspace
- document window & toolbars
- the document window
- the launcher
- the insert panel & tool sets
- the document toolbar
- the property inspector
- dockable floating panels
- using contextual menus

### Model-2

#### Site Control

- defining a site
- file and folder management
- creating site maps
- using the file browser

## Basics

- defining the site
- creating and saving documents
- inserting images with assets panel
- adding text
- aligning page elements
- modifying page properties
- creating links with text and images
- preview in browser

## Linking

- link with point to file
- linking to new source files
- browse for file and link history
- anchor links
- email links
- file links
- image maps

## Model-3

### Typography

- About Typography
- Web Typography

### Tables

# Course Curriculum

- insert and modify a table
- fixed width tables
- relative width tables
- hybrid table
- insert tabular data
- sort table data

## Rollovers

- simple rollovers - insert rollover
- simple rollover - swap image behavior
- multiple-event rollovers
- flash buttons

## Model-4

### Cascading Style Sheets

- redefining HTML tags
- defining a custom class
- CSS selectors
- CSS selectors to group tags
- linking to external CSS
- CSS reference panel

## Forms

- form objects
- creating a form
- creating a jump menu

## Behaviors

- set text of status bar
- open browser window behavior

## Inserting Media Objects

- linking to sounds
- embedding sounds
- inserting flash
- content inserting director content

## 7. JAVASCRIPT

### Model-1

#### Introduction to JavaScript

- Syntax
- Statements
- Comments

### Model-2

#### Enabling in various browsers

#### Popup Boxes

- Alert
- Confirm
- Prompt

### Model-3

#### Variables

#### Operators

- Arithmetic
- Assignment
- Comparison
- Logical
- Conditional

# Course Curriculum

## Model-4

### Conditional Statements

- if
- if...else
- if...else if...else
- Switch

### Loops

- while
- do...while
- for
- for...in Statement
- Break
- Continue

## Model-5

### Functions

- User-defined Functions
- Function Syntax
- Function with Arguments
- Returning Values from Functions
- Built-in Functions
- parseInt and parseFloat

## Model-6

### Events

- Introduction
- Mouse Events
- Keyboard Events

- Form Events
- Document/Window Events

## Model-7

### Cookies

### Page redirection

### Built-in Objects

- Introduction
- Number
- Strings
- Math
- Arrays
- Associative Array
- Array Properties and Methods
- Date
- Boolean
- Regexp

## Model-8

### Advanced javascript

- Form Validations
- Basics of Form Validation
- Validating Radio Buttons
- Validating Checkboxes
- Validating Select Menus
- Validating Textareas

## Model-9

### JS Document Object Model (DOM)

# Course Curriculum

- Introduction
- DOM HTML
- DOM CSS
- DOM Events

## Model-10

### JS Browser Object Model (BOM)

- JS Cookies
- JS Window
- JS Location
- JS Popups
- JS Time

### Introduction to OOP concept

## 8. JQuery

### Model-1

- What is JQuery?
- Overview of JQuery features
- Using JQuery links
- JQuery Selectors
- JQuery Events

### Model-2

#### JQuery Effects

- Hide() & show()
- Fade()
- Slide()
- Animate()
- Callback function
- Chaining

### JQuery HTML

- Get() & Set()
- Add() & Remove()
- CSS()
- Dimensions()

### Model-3

#### JQuery Traversing

- Parent() & children()
- Next() & Prev()
- Find()

### Jquery AJAX

#### Image slider using JQuery plugins

#### Form Validation

## 9. Bootstrap Framework

### Model-1

- Getting started with Bootstrap
- Grid system in Bootstrap
- Adding Header & Navigation
- Adding Logo in Navigation Bar & Adding Banner
- Adding Jumbotron

### Model-2

# Course

## Curriculum

- Adding Rows, Columns & Containers
- Adding Column Width using offset
- Ordering Columns using push or pull
- Nesting Columns in Bootstrap
- Adding Footer top Website
- Typography in Bootstrap
- Adding glyphicons
- Styling Tables
- Adding Responsive or Utilities in Bootstrap
- Styling Button using between classes
- Styling Images and making images Responsive
- Adding description list in bootstrap
- Adding Panels

### Live Website Design Project (100% Realtime Project)

- Designing a Professional Photoshop Template
- Conversion of PSD to HTML
- Slideshow Integration
- Implementing Gallery Script
- Adding the Contact Form
- Form validations using JS

# INDUSTRIAL VISIT & COLLEGE SEMINAR

# AGILE ACTIVITY IN UNCODEMY

Sure, here are the top 10 Agile activities in the IT industry

- 1. Daily Stand-up Meetings:** Short, daily meetings where team members discuss what they accomplished yesterday, what they plan to do today, and any obstacles they are facing.
- 2. Sprint Planning:** A meeting at the start of each sprint where the team plans the work to be completed during the sprint.
- 3. Backlog Grooming:** Regularly reviewing and refining the product backlog to ensure it contains the appropriate items, prioritized correctly.
- 4. Sprint Review:** A meeting at the end of each sprint where the team demonstrates the work completed during the sprint and gathers feedback from stakeholders.
- 5. Sprint Retrospective:** A meeting at the end of each sprint where the team reflects on what went well, what didn't, and identifies actions for improvement.
- 6. User Story Mapping:** Collaboratively visualizing the user's journey through the product to identify all possible features and prioritize them.
- 7. Agile Estimation Techniques:** Using techniques like Planning Poker or T-Shirt sizing to estimate the effort required for user stories or tasks.
- 8. Continuous Integration (CI):** Developers integrate their code into a shared repository frequently, usually multiple times a day.
- 9. Test-Driven Development (TDD):** Writing automated tests before writing the code to implement the corresponding feature.
- 10. Pair Programming:** Two programmers work together at one workstation. One writes the code while the other reviews each line as it is written. They switch roles frequently.

## AKSHAY PATIL

Company  
Annalect

My experience with Uncodemy has been very enriching. Being a student from a completely non IT background has never been a difficulty because of their practical ways of teaching and hands on case studies. The faculty here is always there to guide and help the students in solving their doubts. Uncodemy also provides lifetime placement assistance. I would highly recommend anyone interested in the Data Science course and Data Analytics course to go to this institution. Thank You.

## SAURABH MISHRA

Company : KPMG

Best IT Training institute in Delhi  
NCR for Data Analytics and Data  
Science Course!!!

I am from Non-IT background and joined for Data science and ML course. I got more support and guidance from the trainers. Upendra Sir and Irshad Sir Trainers are more friendly and supportive. Able to learn coding language quickly because of trainers teachings. Thank you trainers and Uncodemy team.

## ADITYA SINGH

Company : Deloitte

I joined the Data Analytics course in Noida from Uncodemy. Upendra sir is well experienced & stupendous teaching, I really obtained more knowledge and also real-time scenarios. if you aspire to learn Data Analytics, Data Science, or Python and searching for an awesome trainer to help with your learning journey. then blindly go ahead and enroll in Uncodemy. By the end of the classes most of the topics will be registered into your memory and you will get a fair idea of how to implement them in real-time scenarios. I'm lucky to find the right trainer and the best training institute in my learning journey. Thank You

## NEHA SHARMA

Company : Infosys

"I can't speak highly enough about Uncodemy's Digital Marketing course. It's been a transformative experience for my career. The course content was up-to-date and comprehensive, covering all aspects of digital marketing from SEO to social media, PPC, and analytics. The instructors were not only experts in their fields but also passionate about teaching. What truly sets Uncodemy apart is their practical approach. I got to work on real campaigns and projects, which gave me the hands-on experience I needed. The support from both instructors and fellow students made the journey enjoyable and engaging. Thanks to Uncodemy, I now feel confident in my digital marketing skills and have advanced my career. If you're looking to excel in digital marketing, look no further than Uncodemy. It's a game-changer.
